CS, ACS and other members attended the SEMINAR on Improvement of service & financial viability at CTS, Alipur organised by BSNLEU, CTD. CGM, PGM & GM(HR & Admn.) were present. Leaders of other unions & associations were also invited.

CS ,in his deliberation,pointed out indiscipline in attendance is the main cause of downfall in work culture of CTS,he proposed that EARS may be re-introduced for all with suitable measures.Lack of coordination between different authorities like KMC,Police and other operators is another cause of sudden cable cut.Uncontrolled TU actions sometimes cause of service interruption,lack of materials is also hindrance for improving cable condition ,as a result BB service is affected.Transmission N/W, OFC cut needs to be attended quickly. If we can ensure these things certainly our service will be improved and we can retain customer in CTD.
