CS & President attended the development meeting called by CGM/CTD on 17-10-2016 at Conference Hall. Other GMs from different vertical were present. CGM sought suggestions from the leaders of Unions & Associations for development of CTD. Because CTD is not performing well recently.

On our behalf we put forth the following suggestions:

1. Shortage of staff Especially executives:

CS pointed out that staff & executives are retiring in large numbers. As a result there is an acute shortage specially in the outdoor/Mtce. We demanded again rationalisation & rearrangement in this regard.

2. Regularisation & timely payment of JC labors:

We demanded that though the JC labors are being paid regularly since recent past, the date of payment varies in different Area. We requested the GM(F) to make sure that payment may be made on 7th to avoid unrest causing loss of work. In this connexion we again reiterated that issuing of PO/SO in SAP/ERP is still a problem & requested early settlement. GM(F) & CGM admitted the fact and assured early solution.

3. Imposition of discipline in every level:

As we have pointed out in earlier occasion also we demanded imposition of discipline in every level. Punctuality in attendance, timely disposal of file work, settlement of medical/staff claims in time bound manner is necessary to improve work culture. Coordination within different wing is also necessary.

4. Strengthening Marketing Wing:

We suggested that strong & professional marketing is the need of the hour. So Ventral/Area marketing wing to be revamped with young staff and executives to cater better service.

5. Mobile data service:

We pointed out that though with the installation of 2G BTS voice service of mobile somewhat improved, data speed is not adequate due to poor coverage by 3G BTS. We need to improve for providing better data speed.

6. Setting up a legal notice monitoring Cell:

Legal Notice are being served to defaulting Customers by AOTRs. But no proper follow-up is being possible in most of the cases. President suggested for setting up a centralised monitoring cell for following up such cases in order to increase revenue collection.

7. Network expansion in newly developed area:

We expressed the need of expanding/extending N/W at fast developing areas like Rajarhat/Newtown etc. Administration informed the case has already been taken, work in progress.

8. BB connection with increased limit:

President pointed out that in different section BB connection with greater speed is needed for better service. CGM informed that in general it is not possible at this moment but whenever required it may be allowed on need basis.

The meeting ended in cordial atmosphere & CGM expressed the next such meeting will be held after 2 months to review the position.
